CAREER OVERVIEW

I am a fourth-year IT student at Thai Binh Duong University, aiming to develop a career in the web field. I have done small projects with C#, ASP.NET Core, Entity Framework Core, and software architecture principles such as Clean Architecture and MVC. I hope to intern as a .net developer to apply the knowledge I have learned into practice and continue to improve my professional skills. My goal is to have the opportunity to work officially and stick with the INFODATION for a long time, contributing to the sustainable development of the company.
